TOTAL BENEFICIARIES & VILLAGES	86	41
---	-----------	-----------

CONCLUSION

- According to the evaluation it proves we have delivered successful training to reached the levels of expectations in different courses.
- According to the age group we mostly covered the young generation of 16-25 successfully
- Unemployed count is higher than employed
- As usual the female percentage is high in graduate beneficiaries' total

SPECIFIC DEVELOPMENT PLAN/GOALS

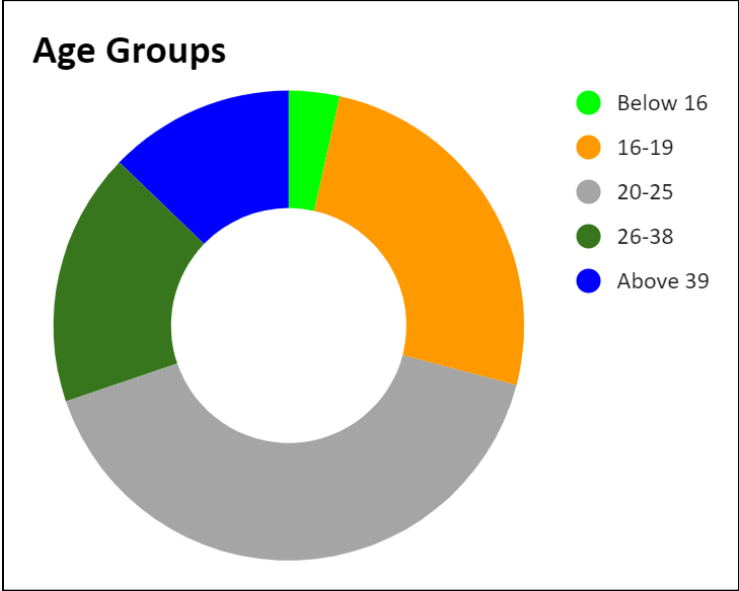

- Need specific outside exposure/ knowledge sharing, related to the course.
- Combining Graphic designing with Photography and Computer courses with English will give good impact for both courses.
- Taking comments every three months will be effective to know pros and cons in the course syllabus and the teaching / facilitating styles and methods.
- Arrange a development trainings and discussion once a month will enrich the course (course reviews)
- To expose renounce personalities in the areas we delivered should address beneficiaries through our Life skills workshops and awareness programs and combine GLI workshops to help beneficiaries to have extra knowledge in the field they study and to inculcate good values and attitudes
- More practical sessions, watch relevant videos of the same area from different parts of the world and field visits will gain more knowledge. (Beneficiaries should get more exposure)
- Every sector should get facilities to have screens and projectors with access to network to show videos, designs, different materials used commonly in the world (women's section should get more attention)

BENEFICIARIES' COMMENTS (taken directly from the post course survey)

- Given the maximum resources available, I don't think it is necessary to improve
- We were educated in every area and gave us good knowledge and make us a good person.
- There are no suggestions to give, the class is running very successfully.
- Field Trip is in the photography syllabus (But we were unable to go)
- Always we stay happy and friendly in this period. so all days I enjoy and memorable.
- Photoshop must be included for the photography class syllabus
- Actually, no advice because all courses are best
- No caption because all courses are best
- Course is very good already. There are many things I have to tell our teacher is very helpful to us to do everything
- All the courses and services are best
- I got the best knowledge and did all activities with the team
- I hope the space of electrical installation room have to be a spacious place
- Improve the team working, create the assignment in class room and met the good teachers
- Encourage more children to do these things
- team work is so important
- If you can give more practical sessions in future, it will be good
- PADI license course getting started
- Increasing Activity
- Getting more education
- Course is Good no change
- Please have 2 more camera to the class
- If can exceed the time period is good in Dive course
