Are you ready...

Explore Seenigama

to get more out of your holiday and travel deeper?

Are you ready to feel like you lived somewhere for a short while and belonged to a community?

Do you want to live like a local and contribute in a meaningful way by simply doing things differently and getting off the beaten track?

Do you wish to enrich your life and the lives of others through discovery in a unique coastal village experience?

If so, get ready to travel to Seenigama.

Kushil Gunasekera, cricketer, entrepreneur, tsunami survivor and Founder of Foundation of Goodness in Seenigama, has created a special holistic village community that thrives in the wake of the 2004 tsunami wave. Kushil's own life transformation from successful sugar trader to visionary philanthropist will inspire you in the spirit of 'Goodness' to enrich your life with altruism. His compassionate drive to uplift and advance rural communities has made Seenigama truly inspiring and the only village of its kind.

Come to Seenigama to share with the local people, the language, the landscape, the incredible food and coastal village culture. You will have authentic, life enriching experiences shared by no other. Volunteer a bit of time, attend a village festival, dive in the ocean or share in a friendly game of cricket with your Club team or join a cooking class to learn the know-how of authentic Sri Lankan cooking.

Connect with others. Reconnect with yourself.

This is what you can expect in Seenigama.

Let us show you all the 'Goodness' Sri Lanka has to offer.
